Evolveum®

What is midPoint?

What's new in midPoint?

- MidPoint 3.6 (July 2017)
  - Identity governance features (a lot!)
  - ITSM integration
  - REST improvements
- MidPoint 3.7 (December 2017)
  - Major identity governance improvements
  - Authorization improvements
  - Governance GUI improvements
  - Function libraries

Role catalog Lookup tables ITSM integration Consistency
Schema Correlation Sequences Expressions Meta-data
Entitlements LiveSync Localization Policy rules
Password management Validity constraints Caching
Web UI Identity Management REST
Synchronization Organizational Structure
Self-service Governance RBAC LDAP
Approval Import SoD Data Protection
Notifications Constants
Recertification Function libraries
XML/JSON/YAML
Deputy Mappings Authorization
Reconciliation Manual provisioning
Administration Bulk actions Dependencies Conditions
Template Metaroles Lifecycle Extensibility Workflow
Reporting Matching rules Parametric roles Audit
Connectors Scripting Personas Role hierarchy

Evolveum®

What's the plan?

- MidPoint 3.7.1 (February 2018)
  - Maintenance update
- MidPoint 3.8 (April 2018)
  - Performance
  - UI improvements
- MidPoint 3.9 (October 2018)
  - UX improvements
  - *Still open (features endorsed by subscribers)*

How to join community?

- Mailing list: lists.evolveum.com

  – Primary communication channel

- Wiki: wiki.evolveum.com

  – Documentation

  – HOWTOs, guides

- Issue tracking: jira.evolveum.com

  – Bugreports

  – Feature requests

Evolveum®

What to contribute?

- Success stories, testimonials

- Documentation (reviews)

- Testing (before release!)

- Automated test code

- Client code (e.g. REST client in python)

- Bugfixes, new features
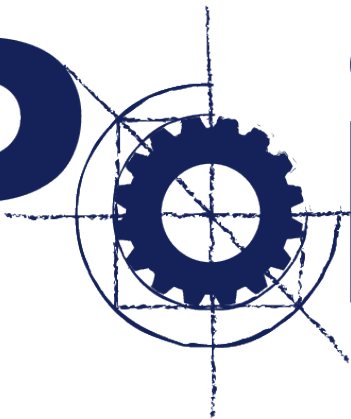

- Partnership, subscriptions
